Professional Summary

Passionate Full Stack MERN Developer with hands-on experience building scalable web applications, real-time blockchain explorer interfaces, AI-powered platforms, and responsive dashboards. Skilled in React.js, Node.js, Express.js, MongoDB, Web3 integrations, wallet connections, and modern UI/UX development. Experienced in implementing dynamic pagination, API optimization, IndexedDB caching, JWT authentication, and AI integrations using Gemini APIs.

Technical Skills

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Material UI, Recharts
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication
- **Database:** MongoDB, IndexedDB
- **Blockchain:** Ethereum APIs, Web3, WalletConnect, Explorer UI Development
- **AI & APIs:** Gemini AI, Google GenAI SDK, Zod Validation
- **Tools:** Git, GitHub, VS Code, Postman
- **Other:** Responsive Design, Performance Optimization, Pagination Systems

Experience

Full Stack Developer – Personal & Freelance Projects

2024 – Present

- Built a blockchain explorer interface with advanced search functionality for block numbers, transaction hashes, addresses, and token data.
- Implemented optimized transaction pagination with dynamic chunk loading and IndexedDB caching for large Ethereum datasets.
- Developed responsive dashboards and validator management interfaces with light/dark mode support.
- Integrated WalletConnect and Web3 wallet authentication flows using modern React architecture.
- Created AI-powered interview report generation systems using Gemini APIs, Zod schemas, and structured JSON responses.
- Optimized frontend performance using lazy loading, API batching, and reusable React components.

Key Projects

Blockchain Explorer UI

Developed a high-performance blockchain explorer with transaction lookup, block details, token verification, pagination, and responsive UI.

AI Interview Report Generator

Built a full-stack AI platform that analyzes resumes and job descriptions to generate interview preparation reports and technical questions.

Validator Management Dashboard

Created a responsive validator management system supporting edit, remove, staking, and rewards functionalities.

Education

Bachelor's Degree in Computer Science / Related Field

(Replace with your actual degree and institution details)

Certifications & Learning

- MERN Stack Development
- Blockchain & Web3 Fundamentals
- AI Integration with Gemini APIs
- Modern JavaScript & React Development
